

# TIGO'S TNB-28

**STANDARD:** 

| INDUSTRY                     | IDEAL APPLICATIONS                          |
|------------------------------|---------------------------------------------|
| Petrochemical                | General handling                            |
| Automotive                   | Heavy Material Handling                     |
| Glass                        | General Manual Jobs                         |
| Metal structure construction | Assembly, Machining /<br>Stamping / Cutting |
| Machinery & equipment's      | Raw material handling                       |

| SPECIAL FEATURES                                                                                     |                                                                                                          |                                                                                                               |                                                                                                           |
|------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------|
|  <p><b>GRIP</b></p> |  <p><b>ABRASION</b></p> |  <p><b>CUT-RESISTANT</b></p> |  <p><b>DEXTERITY</b></p> |

| LINER TYPE   | COATING                      |
|--------------|------------------------------|
| UHMWPE liner | Flat nitrile & sandy nitrile |

|                                               |
|-----------------------------------------------|
| <b>ADVANTAGE</b>                              |
| Cut and liquid resistance with high dexterity |

| FEATURES                                                                                                                     |
|------------------------------------------------------------------------------------------------------------------------------|
| UHMWPE (ultra-high molecular weight polyethylene) cut level 5 / D liner                                                      |
| 3/4th flat nitrile & palm sandy nitrile                                                                                      |
| Coating will give high level of liquid / semi-liquid permeation protection and liner will provide cut level 5 / D protection |
| Seamless knitted liner for ultimate comfort and higher flexibility                                                           |

| LINER COLOUR | COATING COLOUR |
|--------------|----------------|
| Salt pepper  | Black          |

| COATING TYPE                            | SIZE |
|-----------------------------------------|------|
| 3/4th flat nitrile & palm sandy nitrile | 9    |

| CUFF STYLE        | CERTIFICATION       |
|-------------------|---------------------|
| Normal overlocked | EN388: 2016 – 4544D |

| APPLICATION                                          |
|------------------------------------------------------|
| Assembly line, assembling metal parts and components |
| Handling sharp or irregular metal pieces             |
| Press shop, scrap handling, hardware assembly etc    |

| STORAGE                                                 |
|---------------------------------------------------------|
| Store in cool and dry place                             |
| Do not store in direct / high heat or sunlight          |
| Can be stored and transported in their original cartons |

| LAUNDERABLE              | PACKING              |
|--------------------------|----------------------|
| Yes (as per instruction) | 240 pairs per carton |
